(Affiliated to University of Pune & Approved by AICTE)

Sinhgad Institutes

Kusgaon (Bk), Off Mumbai – Pune Expressway, Lonavala Dist. Pune – 410401

Tel.: 2114-673308/508, email: director_sibaca@sinhgad.edu Website : <http://sinhgad-sibaca.in>

Criterion 4 - Infrastructure and Learning Resources

Key Indicator – 4.3 IT Infrastructure

4.3.1 Institution frequently updates its IT facilities and provides sufficient bandwidth for internet connection.

- **Response:**

The institute is well-equipped with a strong IT infrastructure, to cater to the quality education and effective implementation of curriculum. The Central computing facility with 110 Mbps Internet connectivity is available for this purpose. For uninterrupted computing, generator backup of 500KVA is available

Index

Sr.No	Particulars	Page No.
1	Bandwidth Sharing Letter	3-8
2	Internet bills and Purchase order	9-24
3	Updation of Software	25-41
4	IT facilities	42-68
5	CCTV Infrastructure facility	69-71

- The Institute has developed centralized maintenance system in order to support the IT Infrastructure, campus facilities and equipment.
- The institute maintains and updates its IT Infrastructure to ensure seamless connectivity and proper technical support in teaching learning process.
- Computer laboratories and facilities are connected with the Internet and are made available to the faculties and students for their academic needs in their respective departments.
- In the field of digital communication and pandemic situation, the internet communication is important in teaching learning process. The Institute has IT facilities like leased line for internet connection and the software is also frequently updated.
- HDD has been purchase for CCTV camera
- Library is fully automated with KOHA ILS software and currently using **latest version 22.11.04.000 Rosalie**. Koha is a true enterprise-class ILS with comprehensive functionality including basic and advanced options. Koha includes modules for acquisitions, circulation, cataloging, serials management, and authorities, flexible reporting, label printing, multi-format notices, **OPAC** and much more. Koha will work for consortia of all sizes, multi-branch, and single-branch libraries.

SINHGAD TECHNICAL EDUCATION SOCIETY'S SINHGAD INSTITUTE OF BUSINESS ADMINISTRATION AND COMPUTER APPLICATION

(Affiliated to University of Pune & Approved by AICTE)

Sinhgad Institutes

Kusgaon (Bk), Off Mumbai – Pune Expressway, Lonavala Dist. Pune – 410401

Tel.: 2114-673308/508, email: director_sibaca@sinhgad.edu Website : <http://sinhgad-sibaca.in>

- Reylon software is updated version for Account section
- Advanced Dell, HP Computer systems, Windows server are available for smooth conduction of
- Various activities such as online examinations, webinar, online advanced Excel workshop, NDLI Events
- **Learning Management System (LMS)** - For smooth and effective conduction of academics during pandemic, the Institute has provided license copy of Microsoft Teams as a common online platform for teaching-learning.
- Institute uses Talley prime software, ASPIRE Module is developed for fees collection, in which students fees are collected through Aspire fee management module, previously the institute used to use Zoom software, Talley 9 version was previously used but now talley prime is work upon. Previously fees was transitionally collected by cash/cheque/DD but now institute has developed fee collection App called “Sinhgad students App” .
- The institute has network of 92 computers with 110 Mbps Internet connectivity and Wi- Fi facility to fulfill the academic and research need. Centralized server room is used for network monitoring, management and Internet security.
- The institute has deployed the educational Enterprise Resource Planning (ERP) software, which manages the entire administration, campus operations, and academic management in an efficient way.
- **LAN facility:** 3-Layer Switching (Core, Distributed and Access) network is available for the entire campus. Core layer switches in the buildings have been connected with the Optical Fibre Ring Network. This core switching is further extended to Distributed Switching for departments where 100Mbps (Gigabit Switches) are installed.

Other details:

1. Proxy service for wired and Wi-Fi connectivity.
2. UPS Backup of 50 KVA.
3. Generator backup.
4. ERP Software and servers.
5. Central Feedback server.
6. Institution Website.
7. Public IP address.
8. Layer three manageable switches.
9. Fiber Optical connections between the main building and central IT department

Dear Dr. Shashikant Lokhande,

Acceptance of your Microsoft Open Value Subscription-Education Solutions Agreement V8172414 effective date 2020-08-07

Thank you for selecting the Microsoft Open Value Subscription-Education Solutions Agreement for your organization, hereinafter referred to the Open Value Subscription Agreement. This is the EES offering for small to medium academic customers. The purpose of this letter is to advise you that Microsoft has processed your Open Value Subscription Agreement. We hope that you will find it a cost-effective solution for managing your business's software needs going forward. Please review these sections in order to effectively manage your licensing relationship at Microsoft.

Microsoft Volume Licensing Service Center (VLSC)

The Microsoft Volume Licensing Service Center (VLSC) is an online tool that makes it easy for you to manage Microsoft Volume Licensing program agreements, download licensed products, and access volume license keys—all in one place. The VLSC offers key benefits for licensed software management including:

- **Reporting:** View current and historical reporting across programs and agreements that includes key dates, contact information, order confirmations, and your license summary.
- **Product Downloads:** Download software through a simple, secure user interface. VLSC makes it easy for you to find the right product, based on your licensing entitlements.
- **Volume License Product Keys (VLKs):** In order to ensure our customers are receiving the genuine, quality products that they expect, we have introduced Product Activation technology on certain Microsoft products. In order to install these products you will require Volume Licensing Product Keys (VLKs). These VLKs are issued to your organization for your exclusive use. Your VLKs are available to you when you log into the Microsoft Volume Licensing Service Center (VLSC) web site and click on the "Volume License Keys" link.
- **Software Assurance:** To review your organization's Software Assurance benefits, simply log on to VLSC where details of your benefits are displayed. Please be aware that to utilize your benefits, you will need to activate the individual Software Assurance entitlements online via VLSC.

You will be receiving your VLSC welcome letter within 1 to 2 business days. This welcome letter will also be sent to your Software Assurance Manager, Visual Studio and Online Services Manager (as applicable to your enrollment). You can access the VLSC homepage directly at: <https://www.microsoft.com/licensing/servicecenter/>.

Microsoft Dev Tools for Teaching Subscription – With this Open Value Subscription Agreement, qualifying higher education departments that have a core focus in Science, Technology, Engineering, or Math (STEM) are entitled to a free online subscription of Microsoft Dev Tools for Teaching that may be used for instructional use only across their department. Microsoft Dev Tools for Teaching enables you to outfit your labs or classrooms with the latest Microsoft developer, design, and server tools to support personal or in-class learning for your students and educators. Software acquired through the Microsoft Dev Tools for Teaching subscription may be used for instructional purposes only and may not be used for commercial purposes or for institution's production use. To activate your free membership, please go to <https://azureforeducation.microsoft.com> to enroll and enter your agreement number when asked. This entitles your department to the Microsoft Dev Tools for Teaching (Electronic Software Delivery) subscription level at no cost. To learn more, please go to <https://azure.microsoft.com/education/institutions>.

Online Services - Online Services are a set of services that can help your organization take advantage of the benefits that in-the-cloud computing has to offer. As your IT strategy evolves, Microsoft can help you extend the capabilities and functionality of your existing technology investments. Online Services are delivered via subscription and over the web.

Office 365 for Education – Office 365 Education is available to your faculty, staff and students at no additional licensing cost. To subscribe to Office 365 Education, please go to www.office365.com. For additional online services, please contact your reseller.

How to activate your Online Services:

For all Online Services except Microsoft Azure, please use the Online Service Activation tab in VLSC [here](#).

For Microsoft Azure, please obtain your Online Service Activation Key from VLSC. The key can be found at either of the following locations from the VLSC Homepage:

- **Download & Keys** > find the Product/Service name > click **Key**
- **Licenses > Relationship Summary** > Click on the License Number > **Product Key**

Copy the Key and activate at the Azure Portal [here](#).

Student use benefit – When you license Office 365 ProPlus or Office Professional Plus, Windows 10, Microsoft Intune or EMS for all faculty/staff (FTE) employees organization-wide, you are eligible to license the corresponding offer for students within the same defined organization at no additional charge.

- Office 365 ProPlus or Office Professional Plus – students get Office 365 ProPlus
- Windows 10 Education – students get Windows 10 Education
- Microsoft Intune or Enterprise Mobility Suite (EMS) – students get Microsoft Intune

- Education Desktop – student get Office 365 ProPlus and Windows 10 Education

Electronic Software Download for Student Option and Work at Home Rights – In response to customer demand to reduce the cost of physical media distribution, we are making this Electronic Software Download (ESD) available for Student Option and Work at Home Rights for applicable products.

Licensing terms are not impacted by ESD. Additional distribution options are granted through the Electronic Software Download Grant Letter posted here: <https://www.microsoftvolumelicensing.com/userights/>

Yours sincerely,
Microsoft Corporation(I) Pvt. Ltd.

Screenshot of speed test

The screenshot shows the Sophos XG Firewall Diagnostics interface. It features a sidebar with navigation options like 'Control center', 'Reports', and 'Diagnostics'. The main content area displays a table of network usage statistics for two ISPs: TATA ISP and RAILTEL_ISP. Below the table is a line graph titled 'Interface: PortA usage of the last two hours' showing data for Received and Transmitted KBits/s. A summary table at the bottom provides Max, Min, Average, and Current values for various metrics.

Tools	System graphs	URL category lookup	Packet capture	Connection list	Support access
TATA ISP	37004.55	0.15	1110.90	9484.20	
RAILTEL_ISP	210736.02	1236.93	125693.80	95557.53	

	Max	Min	Average	Current
Received KBits/s	197049.71	0.42	113499.71	86183.25
Transmitted KBits/s	85260.28	1236.43	12668.98	9374.28
Received errors	0.00	0.00	0.00	0.00
Transmitted drops	0.00	0.00	0.00	0.00
Collisions	0.00	0.00	0.00	0.00
Transmitted errors	0.00	0.00	0.00	0.00

Automated Library Koha LMS

The screenshot displays the Koha LMS staff interface. At the top, the browser address bar shows 'library-admin.sinhgad.edu/index.html'. The navigation menu includes 'Circulation', 'Patrons', 'Search', and 'More'. The main header identifies the institution as 'SIBACA Sinhgad Institute of Business Administration and Computer Application (SIBACA)'. A secondary navigation bar contains 'Check out', 'Check in', 'Renew', 'Search patrons', and 'Search catalog'. The interface is divided into several sections:

- Left Sidebar:** Contains 'News', 'Quick Reports', 'Catalog Report' (with a list of 11 report types), 'Circulation Report' (with a list of 5 report types), and 'Accounts Report'.
- Main Content Area:** Features a grid of 12 administrative tool buttons: Circulation, Cataloging, Patrons, Serials, Advanced search, Acquisitions, Item search, Reports, Lists, Tools, Course reserves, Koha administration, Authorities, and About Koha.
- Bottom Section:** A white box displays 'Patrons requesting modifications: 11'. The version number 'Koha 22.11.04' is shown in the bottom right of the main area.

The Windows taskbar at the bottom shows the system tray with the date '1/6/2024' and time '10:17 AM', along with various application icons.

आपणांस विनंती करण्यात येते की, सदर परिपत्रक आपल्या विभागातील/संशोधन केंद्रातील सर्व संशोधन मार्गदर्शकांच्या निदर्शनास आणून उपरोक्त दिलेल्या सूचनेनुसार कार्यवाही करण्यात यावी.

Savitribai Phule Pune University

(Formerly Pune University)

Circular no. 300/2023

Subject: Ph.D. When submitting a thesis to Turnitin and Drillbit-Extreme Plagiarism Detection Software Regarding getting plagiarism report after checking in.

Hon. Principal/Hon. Director, all affiliated recognized Institutes/Research Centers as well as all Hon. The Head of Department, University Academic Department, Savitribai Phule Pune University is hereby informed that the Ph.D. While accepting the thesis, a Plagiarism Report is collected from the student along with his thesis. As the said procedure is prescribed by the University Grants Commission, it is mandatory for all research students. Earlier Ph.D. Research thesis of Turnitin and Urkund After checking in these two software, its report was submitted along with the thesis. A login was made available to the research mentors through the university to process the said thesis examination.

However, as a part of Govt of India's 'Drillbit - Extreme Plagiarism Detection Software' initiative under INFLIBNET project from November 01, 2023 onwards. Has been implemented.

Accordingly, the research mentors in the academic department of the university premises working under their guidance, Ph.D. While submitting the research thesis to the research students, they should check it in Turnitin software and submit the plagiarism report and the research guides of the attached research center should check the Ph.D. While presenting the research thesis to the students, the researcher checks it through Drillbit-Extreme Plagiarism Detection Software and submits the plagiarism report.

Should do

While checking the said (plagiarism report), the research guides should check through their login and keep the report in front of the Departmental Academic Integrity Panel (DAIP) committee of the research center and send it to the university with the signatures of all the members.

Java Script in Programming for Project

Running Eclipse IDE for Java Programming

The screenshot shows a web browser window displaying the Eclipse Foundation website. The browser's address bar shows the URL: [https://www.eclipse.org/setups/sponsor/?scope=Eclipse%20IDE%20for%20Java%20Developers%20\(includes%20Incubating%20components\)&version=4.25.0...](https://www.eclipse.org/setups/sponsor/?scope=Eclipse%20IDE%20for%20Java%20Developers%20(includes%20Incubating%20components)&version=4.25.0...). The website header includes the Eclipse Foundation logo, navigation links for Projects, Supporters, Collaborations, Resources, and The Foundation, and a prominent blue 'Sponsor' button.

The main content area features a breadcrumb trail: Home > Projects > Sponsor. Below this, there is a section for 'Eclipse IDE for Java Developers (includes Incubating components)' with a version number of 4.25.0.20220908-1200. A paragraph describes the IDE as being brought to you by the coordinated effort of Eclipse's diverse community, using infrastructure provided by the Eclipse Foundation, and is 100% free and open source.

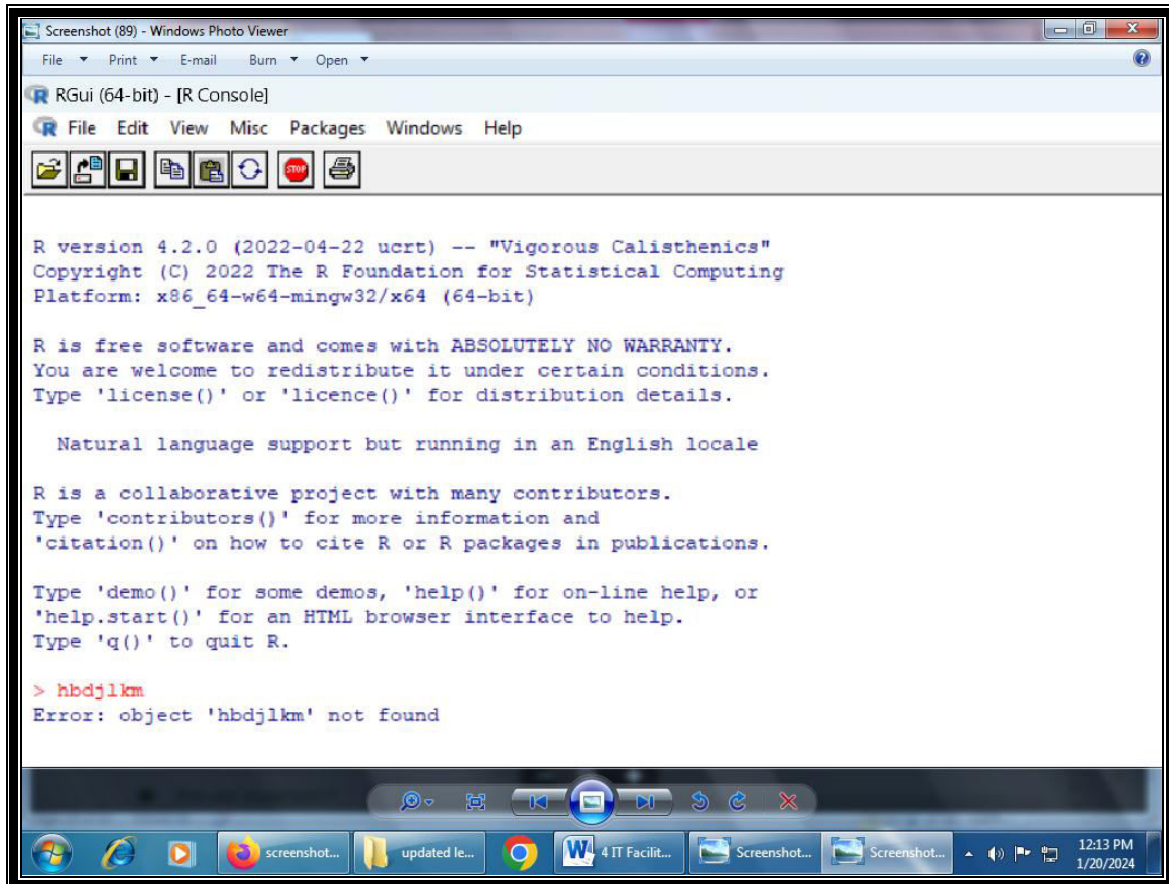

A section titled 'What Can I Do to Support the Eclipse Community?' features the 'FRIEND OF eclipse' logo, a 'Sponsor' button, and currency symbols (\$, €, £, ¥). Below this, there are two expandable sections: 'Invest Your Money' and 'Invest Your Time', each with a 'read more...' link.

On the right side of the page, a vertical sidebar contains a search icon, a user profile icon, and a 'Sponsor' button. Below these, there are two main sections: 'Invest Your Money' and 'Invest Your Time'. The 'Invest Your Money' section includes links for 'Sponsor', 'Become a Member', 'Join the Working Group', and 'Start a Project'. The 'Invest Your Time' section includes links for 'Get an Account', 'Sign the Contributor Agreement', and 'Contribute to the Platform'.

The Windows taskbar at the bottom shows the system tray with the date 13-01-2024 and time 11:03, along with various application icons and a search bar.

IT POLICY

Introduction:

IT Policy in Education is much more than the mere collection and distribution of knowledge. It offers intellectual hospitality, opportunities for innovation, creativity; power of thought and imagination. It envisages development of character and inculcation of a firmness of mind and zeal to offer one's best to the world. Education is the means of unfolding moral and spiritual potentialities of men. The initiative to develop an IT Policy of the college is inspired by the tremendous potential of IT for enhancing outreach and improving quality of education. This policy endeavors to provide guidelines to support the stakeholders of SIBACA in optimizing the use of IT resources. Users are currently adhering to all the policies mentioned here.

Importance and role of ICT in an Educational Institution

Meaning of ICT:

Information and Communication Technology Consists of the hardware, software, networks and media for the collection, storage, processing, transmission and presentation of information (voice, data, text, images and videos) as well as related services.

Information and Communication Technologies are defined as all devices, tools, content, resources, forums, and services, digital and those that can be converted into or delivered through digital forms, which can be deployed for realizing the goals of teaching learning, enhancing access to and reach of resources, building of capacities, as well as management of the educational system. These will also include processes for digitization, deployment and management of content, development and deployment of platforms and processes for capacity development, and creation of forums for interaction and exchange.

Scope:

1. Respect the rights of others by complying with all college policies regarding sexual, racial and other forms of harassment, and by preserving the privacy of other individuals. For example, it is prohibited to send harassing messages via email or social networking or transmit or reveal personal or private information individuals.
2. Use computing facilities, accounts and data only when you have appropriate authorization and use them for approved purposes.
3. Respect all pertinent licenses, contractual agreements and copyrights. Use only legal versions of copyrighted software in compliance with vendor license requirements. For example, you should not post another individuals copyrighted material on your web page or install software with a single user license on multiple computers.

4. Preserve the integrity of computing systems, electronic data, and communication networks. For example, one should not modify settings on a desktop computer to make it unusable for others or excessively utilize network resources, like music videos, which might overload college network bandwidth.

5. Respect and adhere to all appropriate local, state and government laws. For example, it is prohibited to use IT resources of the college to attack computers on another network by launching viruses, worms, or other forms of attack.

Objectives:

SIBACA Information Security Policies are necessary to ensure that important data, Institution plans and other confidential information are protected from theft or unauthorized disclosure.

1. The objective of the IT Policy is to devise, catalyze, support and sustain IT and IT enabled activities and processes in order to improve access, quality and efficiency in the education system of the college.
2. The IT Policy aims at preparing adult learners to participate creatively in the establishment, sustenance and growth of a knowledge society leading to all round socio- economic development of the nation and global competitiveness.
3. Enabling the rapid creation and inexpensive distribution of educational information and knowledge.
4. Encouraging professional development, in service training, remote support and mentoring for lifelong learning for teachers, managers and other citizens.
5. Facilitating fast and easy access to information and expertise around the world.
6. Increasing motivation through the use of multimedia (sound, video, graphics, animation and text.)
7. Allowing each student to learn at his/her level and speed thereby giving pupils greater control over their own learning.
8. Engaging students in research, data analysis and problem solving, thereby facilitating higher-order thinking processes such as synthesizing, interpreting and hypothesizing.

Privacy:

While the College values and respects the privacy of its staff, faculty, students, and other users, the intrinsic nature of electronic records limits the extent to which the College can guarantee a user's privacy. Despite security protocols, communications over the Internet—and across the local campus network of the college—can be vulnerable to interception and alteration.

Personal:

Use Personal use is defined as the non-academic, non-administrative use of IT systems of the college. Such use is solely discretionary; it neither serves an essential employment function nor is it related to academic discourse. Data that result from personal use are “personal data”.

Passwords and User IDs

System accounts, passwords, and user IDs plays an important role in protecting the files and privacy of all users. Because users are responsible for all uses made of their accounts, users must take exceptional care to prevent unauthorized use of their accounts. This includes changing passwords regularly and disabling “automatic” log-ins.

Data Storage and Back-ups

The College maintains a centralized repository of data stored in user accounts on the College network. This includes all the data that a user creates and saves on the College’s network storage devices. It also includes saved email messages, attachments, files, and folders.

Security

The College implements appropriate “industry-standard” practices concerning the security of the IT resources of the college. These methods are designed to protect against unauthorized access, intrusion, or damage to the availability, access, or integrity of the IT systems of the college.

POLICY STATEMENT

"It shall be the responsibility of the I.T. Department to provide adequate protection and confidentiality of all corporate data and proprietary software systems, whether held centrally, on local storage media, or remotely, to ensure the continued availability of data and programs to all authorized members of staff, and to ensure the integrity of all data and configuration controls."

Other Wireless Devices:

Unapproved wireless devices, such as portable phones and other devices with two-way radios may interfere with the operation of the College wireless network. If the IT department receives a report of interference and determines that a non-approved wireless device is causing interference with the College functioning, it reserves the right to ask the owner of the device to discontinue its use.

ALL THE ABOVE POLICY APPLIES TO:

This policy applies to all students, faculty, and staff of SIBACA, Lonavala and to all other IT users of the “SIBACA, Lonavala”. These users are responsible for reading, understanding, and complying with this policy.

Summary of Main Security Policies:

1. Confidentiality of all data is to be maintained through discretionary and mandatory access controls, and wherever possible these access controls should meet with security functionality.
2. Internet and other external service access are restricted to authorized personnel only.
3. Access to data on all laptop computers is to be secured through encryption or other means, to provide confidentiality of data in the event of loss or theft of equipment.
4. Only authorized and licensed software may be installed, and installation may only be performed by I.T. Department staff.
5. The use of unauthorized software is prohibited. In the event of unauthorized software being discovered it will be removed from the workstation immediately.
6. Data may only be transferred for the purposes determined in the Organizations’ data-protection policy.
7. All diskette drives and removable media from external sources must be virus checked before they are used within the Organization.
8. Passwords must consist of a mixture of at least 4 alphanumeric characters, and must be changed every 30 days and must be unique.
9. Workstation configurations may only be changed by I.T. Department staff.
10. The physical security of computer equipment will conform to recognized loss prevention guidelines.
11. To prevent the loss of availability of I.T. resources measures must be taken to backup data, applications and the configurations of all workstations.

VIRUS PROTECTION:

1. The I.T. Department will have available up to date virus scanning software for the scanning and removal of suspected viruses.
2. Corporate file-servers will be protected with virus scanning software.
3. Workstations will be protected by virus scanning software.
4. All workstation and server anti-virus software will be regularly updated with the latest anti-virus patches by the I.T. Department.
5. No disk that is brought in from outside the Organization is to be used until it has been scanned.

7. All removable media containing executable software (software with .EXE and .COM extensions) will be write protected wherever possible.
8. All demonstrations by vendors will be run on their machines and not the Organizations.
9. New commercial software will be scanned before it is installed as it occasionally contains viruses.
10. Management strongly endorses the Organizations' anti-virus policies and will make the necessary resources available to implement them.
11. Users will be kept informed of current procedures and policies.
12. Users will be notified of virus incidents.
13. Employees will be accountable for any breaches of the Organizations' anti-virus policies.
14. Anti-virus policies and procedures will be reviewed regularly.
15. In the event of a possible virus infection the user must inform the I.T. Department immediately. The I.T. Department will then scan the infected machine and any removable media or other workstations to which the virus may have spread and eradicate it.

ACCESS CONTROL:

1. Users will only be given sufficient rights to all systems to enable them to perform their job function. User rights will be kept to a minimum at all times.
2. Users requiring access to systems must make a written application on the forms provided by the I.T Department.
3. Where possible no one person will have full rights to any system. The I.T. Department will control network/server passwords and system passwords will be assigned by the system administrator in the end-user department.
4. The system administrator will be responsible for the maintaining the data integrity of the end-user department's data and for determining end-user access rights.
5. Usernames and passwords must not be shared by users.
6. Usernames and passwords should not be written down.
7. Usernames will consist of initials and surname.
8. All users will have an alphanumeric password of at least 4 characters.
9. Passwords will expire every 30 days and must be unique.
10. Intruder detection will be implemented where possible. The user account will be locked after 5 incorrect attempts.

LAN Security Routers & Switches:

LAN equipment, hubs, bridges, repeaters, routers, switches will be kept in secure hub rooms. Hub rooms will be kept locked at all times. Access to hub rooms will be restricted to I.T. Department staff only. Other staff and contractors requiring access to hub rooms will notify the I.T. Department in advance so that the necessary supervision can be arranged.
